Summary

I am pursuing an M.Sc. in Cybersecurity at NFSU Goa, with a bachelor's degree in Computer Science and IT. Academic projects, hackathons, and CTF competitions have helped me develop teamwork and problem-solving skills. I am seeking opportunities to apply my learning and gain practical cybersecurity experience.

Skills

Capture The Flag (CTF) Methodologies • Hackathon Methodologies

Web Application Security & Vulnerability Assessment

API Design & EHR Architecture • Artificial Intelligence & Geo-fencing

Projects & Experience

Guardian Global | Smart India Hackathon (SIH) 2025 | Goa, India

System Architect | 2025

- Designed a smart tourist safety monitoring platform architecture for high-risk and remote regions.
- Integrated AI, blockchain-based identity verification, and geo-fencing for secure, real-time monitoring.

EHR Traditional Medicine API Integration | NFSU

API & Backend Designer | 2025

- Conceptualized a web application MVP to integrate Indian traditional medicine datasets into Electronic Health Record (EHR) systems.
- Designed an API framework mapping NAMASTE and ICD-11 TM2 terminology, with Entity-Relationship (ER) graph generation.

Gorilla Grind (Gamified Diet Planning MVP) | NFSU

Product Architect | 2025

- Designed a gamified health and fitness application MVP, from concept to technical specification.
- Created Product Requirements Documents (PRD) and screen flows to guide development and user experience.

Cisco Capture The Flag (CTF) Qualification Round | NFSU Goa Campus

Competitor (Team GOA_Nulldrift) | Sep 2026

- Secured 1st Place at NFSU Goa Campus and 2nd Place at the finals in NFSU Gandhinagar.

Education & Extracurriculars

Master of Science, Cybersecurity

National Forensic Sciences University – Goa Campus | Expected 2028

Bachelor of Science, Computer Science / Information Technology

Silver Oak University

Active Participant – Cybersecurity Competitions

Participate in technical challenges, vulnerability assessments, and competitive programming to improve offensive and defensive security skills.
